

WILD SHIBA WhitePaper (\$WSHIB)

WILD SHIBA

Whitepaper Version: 1.0

WILD SHIBA in Brief

WILD SHIBA is truly a BSC GEM, combining DOGE dividends with the ability to save dogs worldwide. We, as a team, have a vision for WILD SHIBA and will not stop until we make that vision a reality. We are passionate about improving animal welfare all over the globe and, with WILD SHIBA, we plan to make a huge impact.

We cannot wait to bring you along for the ride as we save animals and provide you with a great investment opportunity at the same time. We come with four pillars that will help us and the community around us.

1. Passive Income In Shiba Tokens
2. Wild Marketing
3. Community Focussed
4. Innovative Rewarding Mechanism

Why WILD SHIBA?

We have an automatic and fair process to reward our supporters and token holders in the longer run. Let's be real. We have seen many projects sharing their own tokens for the holders, but for a well-doing token to be rewarded to the users is something rare, isn't it?

That is what makes us different from others. WILD SHIBA is going to reward the token holders in SHIB tokens, and you have been looking at how big the growth of SHIB has been in the recent past.

While we have multiple reasons to ace ahead of the projects that have been only promising and doing not much, the reward system for token holders and supporters is unique and will be a reason why you should be investing in WILD SHIBA. Let's take WSHIB to the moon, shall we?

Tokenomics - Public Listing

- Total supply: 1000,000,000,000
- Tokens for sale : 50% i.e. 500,000,000,000
- Presale rate : 5,000,000,000 per BNB
